Dr. Bell's highly successful Leadership Styles seminar has been handcrafted exclusively for those who have completed Advanced Achievement Leadership.

As an elite graduate of the Advanced Achievement Leadership seminar, you have laid a strong foundation for mastering your own leadership skills. You have learned the fundamental concepts and framework of the Achievers model, completed the Bell Personality Profile and received feedback from your associate evaluations.

Leadership Styles builds on the insights and understanding you gained about yourself, your personality and the effect of your behavior on others. Now you will integrate this knowledge to become a more effective leader.

You will learn how to:

- ▲ Build your leadership talents most effectively based on your feedback from your Bell Personality Profile.
- ▲ Formulate a clear picture of the results you produce by your leadership patterns in your work and personal life.
- ▲ Take advantage of your strengths and manage around your weaknesses so you can raise your "Mastery Level of Leadership" and apply your learnings to your job and personal life.
- ▲ Implement the specific steps to build each of the key processes of leadership.
- ▲ Increase the commitment level of your team.
- ▲ Lead each of the major personality patterns.

This program is worth 1.2 CEU credits and 14 CPE credits, no course prerequisite required.
